* Comirnaty® Omicron XBB.1.5 10 micrograms for children 5 to 11 years is available in two formulations:

1. Comirnaty Omicron XBB.1.5 10 micrograms/dose concentrate for dispersion for injection – Orange Cap - given that this is a concentrate, it needs to be diluted. After dilution, the dose is 0.2ml.
2. Comirnaty Omicron XBB.1.5 10 micrograms/dose dispersion for injection– Blue Cap - ready to use (which does not require dilution). The dose is 0.3ml.

	Comirnaty® Omicron XBB.1.5 30 mcg (0.3 ml)	Nuvaxovid® XBB.1.5 5 mcg (0.5 ml)
SmPC Name	Comirnaty Omicron XBB.1.5 30 micrograms/dose dispersion for injection	Nuvaxovid XBB.1.5 dispersion for injection
