Circular 020/20

## Re: Discretionary Hardship Arrangements - Wound Management and Compression Hosiery

Dear Pharmacist,

Applications under Discretionary Hardship Arrangements are currently submitted via secure email to PCERS (Ref: Circular 10/20 and 16/20). As staff in the local offices who were re-deployed to assist with COVID-19 work have resumed normal duties, applications are not required to be submitted to PCERS any longer and can be sent directly to the Local Health Office with immediate effect. Applications that have been submitted to date to PCERS via [novelhardship@hse.ie](mailto:novelhardship@hse.ie) will be dealt with by PCERS and a further application is not required to be submitted to the Local Health Office. The Local Health Offices have been informed that all existing hardship approvals currently in place can remain until further notice.

I refer to previous communications in relation to Wound Management and Discretionary Hardship Arrangements, and in particular Circular 01/18. The HSE is satisfied that all requirements can be ordinarily met through the Reimbursement List maintained in compliance with the Health (Pricing and Supply of Medical Goods) Act, 2013. As you are aware, dressings are not reimbursable through the General Medical Services (GMS) scheme.

Dressings may be accessed using the following cascade:

1. As national tender arrangements are in place, through the Public Health Nurse (PHN) at a local level which is the most cost effective route for the HSE,
2. Through GP (Pink) Stock Order forms for ambulant patients who attend the surgery for wound management and dressing application (**Appendix A** is an updated list of dressings available through the GP (Pink) Stock Order and Drugs Payment Scheme),
3. When dressings cannot be obtained via option 1 and 2 for patients in the community, an application can be made through Discretionary Hardship Arrangements. Applications for funding through Discretionary Hardship arrangements should only be made in circumstances where 1 and 2 do not apply. Please note that reimbursement support will not be guaranteed until an application has been approved by the local health office or the PCERS. Note:
  - (i) Normal Nursing Needs that would be expected to be available as stock in residential settings will not be approved under Discretionary Hardship Arrangements (Ref Circular 48/16 and 01/18 – List of Normal Nursing Needs). These items are highlighted in **Appendix A** and are not approved under Discretionary Hardship Arrangements for those patients residing in residential settings (i.e. nursing homes).

- (ii) The other items on **Appendix A** (i.e. not highlighted) may be approved at the prices specified. Applications should specify the 5 digit GMS code and the corresponding price.
- (iii) All items listed on **Appendix A** are reimbursable under the Drugs Payment Scheme (DPS).
- (iv) Dressings of a more complex nature, not listed on **Appendix A**, may be considered for reimbursement supported by a hospital prescription. Applications will also be considered where the product has been recommended by a Tissue Viability Nurse (TVN) employed by the HSE. Applications signed by the TVN will be accepted.
- (v) You are reminded that the HSE National Expert Group do not consider there is any need for specific conformable Sacral Dressings or Heel Dressings. Their expert opinion is that flat dressings can be moulded at the point of dressing the wound or pressure point to fit appropriately. Therefore, such dressings will not be approved through Discretionary Hardship Arrangements unless listed on **Appendix A**.

**Appendix B** is an updated list of compression hosiery accessible to patients through the GMS scheme (maximum of two pairs per calendar year). Compression hosiery for other indications (e.g. lymphoedema, lipoedema) and compression hosiery aids are not reimbursable through Discretionary Hardship Arrangements. Applications for such items should be forwarded to HSE Aids and Appliances at local level. Compression hosiery are not reimbursable under DPS or LTI scheme.

For reimbursement support to be considered for any product through Discretionary Hardship Arrangements, a fully completed HD1 form and a copy of the prescription should be sent to the patients Local Health Office (**Appendix C**). Local Health Offices are in a position to approve the items in **Appendix A** under Discretionary Hardship Arrangements as these items have been reviewed by the HSE National Expert Group for quality and cost-effectiveness. Applications submitted without a fully completed HD1 or without a copy of the prescription cannot be progressed. Approval may be granted for a maximum of the prescription validity or for shorter periods on an occasional basis (for example in the case of specialised dressings).

If approval is not granted, an Individual Reimbursement Form (enclosed) may be completed by the prescribing consultant to appeal a decision. This should be submitted directly to the PCERS by posting to the address on the form.

Yours faithfully,

Shaun Flanagan  
Primary Care Eligibility and Reimbursement

## Appendix A

## Items reimbursable on GP (Pink) Stock Order Form and Drugs Payment Scheme

Items highlighted in yellow are classed as normal nursing needs and are not reimbursable under Discretionary Hardship Arrangements for those in residential settings

Category	GMS code	Product	Pack Size	HSE Reimbursement Price
